

SALES POLICY for the sales of TES products

1. Prices given for every quotation refer to the cost of the part number alone and does not include bank/administration fees and packaging. These charges will be included in proforma and final invoices.
2. Every AC/DC power supply and DC/DC converter manufactured by Alexander Electric s.r.o. or Tesla Electric s.r.o. under the brand Tesla can be modified according to client's request. These modifications may be related to input and output voltage ranges, output power, operating temperature ranges and value of breakdown voltages.
3. The datasheets describe the most universal products with maximum configuration and best performance for this particular type of module.
4. Manufacturing of customized products (not less than a minimum quantity) according to the customer's specifications may be available; prices will be estimated accordingly.
5. Customers who provide annual requests and sign an agreement with Alexander Electric s.r.o. or Tesla Electric s.r.o. will have advantages when ordering and delivering of goods.
